In 1976, NASCA, the Numismatic and Antiquarian Service Corporation of America was founded for the purpose of providing an efficient and simple mechanism for collectors and dealers to benefit from services previously limited to a privileged group. NASCA organized auction sales which included a wide range of numismatic items, describing them with fully researched entries in beautiful catalogues that have become the standard in the field. These catalogues are landmarks in a fascinating area of collectible history.

Stock certificates and bonds were latecomers to the numismatic field and to this growing interest R.M. Smythe & Co., a century old financial service organization, devoted its resources and worldwide contacts. Smythe organized the first auction of stocks and bonds in the United States in 1981 at Fraunces Tavern, and this historic sale established the collecting area which has now become well-known. These two pioneering activities have evolved into NASCA, a division of R.M. Smythe & Co., Inc.

Seventy sales later, comprising more than 118,000 lots, we offer you a thoughtful and efficient answer to the problem of liquidating your numismatic properties wisely.

CONDITION TERMINOLOGY FOR PAPER

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.

Choice Unc. (Choice Uncirculated - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.

Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.

Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.

AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.

EF (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.

VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.

VG (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.

Good (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.

Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.

Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.

A or **Abt** (before a grade) - A shade below the grade it preceeds.

Plus or + (following a grade) - A shade better than the grade.

VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.

VF/Good (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

4064 **CINCINNATI ASSISTANT TREASURER'S OFFICE (PAYABLE THROUGH THE CINCINNATI CLEARING HOUSE ASSOCIATION). $10,000.** Act of February 25th, 1862. #36. ABN. Green & black. Green reverse. **U.** There is a ½" split in the upper right border and a few other minor edge nicks, otherwise **Abt Fine.** **($1000-Up)**

The Act of February 25, 1862 provided that $25,000,000 might be deposited for 30 days or more on 10 day call with the Treasurer or Assistant Treasurer of the United States. This certificate was part of a series of certificates in $1,000, $5,000 and $10,000 denominations prepared by American Bank Note for the United States Assistant Treasurers in Boston, New York, Philadelphia, Cincinnati and St. Louis, together with the U.S. Depository at Baltimore. Each had its own colors, and not enough have been seen to provide full information here. Only two $1,000 certificates are reported unredeemed. All certificates destined for Cincinnati were intercepted by John Hunt Morgan, the Confederate Cavalrymen, whose raid is reported in Spaulding's book on the Greenbacks.

We know of only one other surviving certificate from this office; No 73, originally out of the Criswell Collection of odd denomination notes sold at the BRNC convention in Washington, D.C., October, 1980 (Lot C-312), estimated at $12,000.

Extraordinary Archive Specimen Set

Archive specimens were made to indicate the range of serial numbers issued during a press run. The BANCO NACIONAL ULTRAMARINO notes of the 1906-1918 series were numbered consecutively regardless of denomination. We are given an indication of the date of issue by a handwritten notation in the upper left corner of the counterfoil on the 50 Rupia which dates the note as "26 Sept 1906". The serial number range indicated on this archive specimen is 05001 through 10000 (5000 printed). The 5 Rupia shows a range of 38001 through 50000. The 10 Rupia, 24501 through 35000. The 20 Rupia is numbered 15001 through 20000.

A minor handling pinch fold runs vertically through part of each note. "CANCELLED" inobtrusively punched at the bottom. A green printer's ink smear appears on the reverse of the 5 Rupia.
